

Erratum:

There is an error in the text of SEFSC 2008 “Estimated takes of sea turtles in the bottom longline portion of the Gulf of Mexico reef fish fishery July 2006 through 2007 based on observer data”, September 2008, PRD-07/08-15. Page 4, second sentence reads “The RFOP attempts to randomly sample all vessels with reef fish permits proportional to effort stratified by gear type (hand, bandit, longline), season (January – March, April-June, July-September, October – December) and region (east and west GOM) based on historical (previous years) logbook landings.” It should have read “The RFOP attempts to randomly sample all vessels with reef fish permits stratified by gear type (hand, bandit, longline), season (January – March, April-June, July-September, October – December) and region (east and west GOM).”
